

# Boards & Stands

Dive into big time fun!

Diving boards have changed quite a bit since the first all-wood spring board over 75 years ago. Today we have a variety of beautiful, natural colors and unique board shapes that blend into your poolscape. Plus, cutting-edge concepts like our Fusion board, a fun, two-for-one combination diving board and jump platform.

We also take safety seriously. S.R.Smith has trained thousands of pool professionals via our Certified Professional Installer program how to properly install our diving boards. Plus, we incorporate industry leading safety features, and include safe diving materials in every board we sell.

New! Fusion™

**Fusion** — This new board can serve as a diving board, or a jump platform/poolside bench — you decide! A locking swivel mechanism allows pool owners to turn the board 90° and lock into a traditional diving board position or into a jump platform/poolside bench position. The composite material diving board has a matching, non-slip tread for maximum safety and comes with an instructional diving video.
