Color Scheme

Captivate your audience with a colorful array of LED lights in colors such as Electric Blue, Coral Pink and Violet to help highlight your pool water or other prominent show stopping features.

For an extra touch of sophistication and contrast, use Mahogany Brown throughout the outdoor living area. We suggest to use this color in furniture, spas, fire pit bases, and in the coping of your pool.

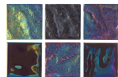

Cream is ideal for simple aesthetics and relaxing areas such as in cabanas or ledge loungers. This may also be used subtly in pool decking to balance the dark coping.

Pool Design

Pool tiles that have a darker base with lighter details or even colorful reflections create an additional eye-catching factor. The reflective tiles such as NPT's Equinox Multicolor reflect beautiful tints of blues and purples. If one prefers a more decorative look, use a star-like pattern tile with a marble texture like in NPT's Gray Morning Star.

In the pool's water color, we recommend pool finishes that have jewels or quartz mixed in. NPT's JewelScapes Yacht Club Blue will reflect the beautiful sparkle and lights while QuartzScapes Curacao Night will bring a mysterious and darker pool water.
