Color Scheme

When using Classic colors, focus on the primary base colors: Baby Blue and Cream. These two will be your center colors in the coping, decking, and in your pool tile. The Basic Brown will be used as a supportive shade around the base colors. We recommend to use it sparingly.

The Dusty Rose will serve as pop of color among the cream pieces for a charming touch. This hue is perfect for potted plants, accent pillows, and in tinted decking.

Let the Robin's Egg Blue be the inspiration for your water color. Using a light tone will make your backyard appear more inviting.

Pool Design

To make an outdoor living area feel like home, use subtle and simple designs. A stone textured tile and decking provides a smooth clean line to your pool. We suggest tiles such as NPT's Marblestone Blue and Geo Sand for slight decorative touches.

Compared to Robin's Egg Blue, we recommend pool finishes such as NPT's QuartzScapes Blue for a sparkling finish and ColorScapes Bora Bora Blue for a smooth look.

Pool Features

In this homey design, we recommend lounging patio furniture with light colored patterns, water jets, an outdoor kitchen area and square shaped spas.
