Color Scheme

Let the deep blues of the sea be your primary colors of this wondrous color scheme. By using a mixture of Denim Blue, Cobalt Blue and Sky Blue, it will create a tranquil, mysterious and a calming influence in a outdoor living area.

Create a guiding path to the deep blue pool, using Sand colored entry steps, tiles, finish, or decking for a natural beach look.

The Wood Brown is ideal for rocky details, mosaics, and grottos, giving dimension to the array of blues.

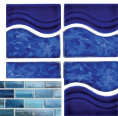

Pool Design

Make your pool feel like the sea with water textured tiles such as NPT's Agate Portofino Pearl and wave patterns such as NPT's Cobalt Blue. These tiles also contain the varying hues of the sea.

Design your pool with wave-like shapes in mind. We recommend using a freeform pool to showcase the fluidity of water and the endlessness of the world's oceans.

For deep blue waters, we recommend NPT's QuartzScapes Reflections Midnight Blue and for a pebble look NPT's StoneScapes Aqua White.
