Color Scheme

The Silver and Black will be your primary colors in this beautiful look. They will be prominent in your paving, coping, and especially your pool tile.

The Cerulean Blue and Sky Blue will be noted as accent colors. Use this in patio furniture, vases, glass for your fire pit and more. Toss in a fun pink for a light and bright touch!

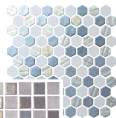

Let the Steel Blue be the focus of your water color. This can be achieved with pool finishes such as NPT's StoneScapes White and Zanzibar.

Pool Design

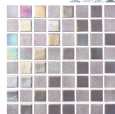

It's the little touches that make an atmosphere glamorous. Using pool tiles with a hint of glittering metal or reflective pieces give your pool that glamorous subtle shine.

Tiles like NPT's Opal Steel Grey give off a reflective multicolored shine to help enhance the silver. NPT's Starburst Silver is perfect to add a little more sparkle in a pool. Consider using one of these tiles to highlight your spa!

Pool Features

For this lavish look, we recommend a freeform shaped pool with decorative water features such as: rain curtains, bubblers, water bowls, and tanning ledges.
