## Color Scheme

Maroon Flush

Golden Grass

Spring Wood

Russet

Black

Just like your favorite iconic hotel, your pool design should create timeless glamour that can last for years to come. For a classic atmosphere, use hardscapes close to colors Spring Wood or Russet.

When it comes time to add some glamour to your outdoor living area, use the Golden Grass color sparingly for accents in your water features or in your patio furniture. Then use the color Black to enhance those gold features through rugs, swimming pool tiles or even in pebbles to outline your space.

The charming color, Maroon Flush, is perfect for plants, throw pillows, or accessories like a pool float for a vintage aesthetic.

## Pool Design

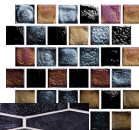

To create the vintage Hollywood aesthetic, use lighter gray or blue shades for your pool finish such as QuartzScapes Mariner Blue and JewelScapes Aquamarine. Bonus points for adding reflective pieces for extra glamour!

For Hollywood Regency pool design, aim for smooth, geometrical shapes like in NPT's Oceanscapes Mavericks Hex Border, or Oceanscapes Blackies to draw the eye to the swimming pool.

We recommend doing creative pool shapes such as Grecian or Roman to enhance the resort-like atmosphere.
