## Color Scheme

Copper Brown

Carbon Black

Steel Silver

White

Sand

A Modern Design has a hint of metallic sheen, industrial style, and a look of exposed raw materials. For this look, Carbon Black and Steel Silver will be the key colors. One can use the colors in the pool tile, industrial artistic pieces and in an outdoor kitchen area.

A basic White can be used in or around your pool decking, but it is recommended to use sparingly to highlight desired areas.

Copper Brown and Sand are great accent colors to use in pool tiles, lighting, plants or decking for a darker atmosphere.

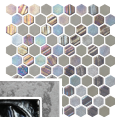

## Pool Design

Modern pool design is all about angles. Therefore, for a sleek design use rectangular shaped pools, square shaped raised spas, and staggered conversation pits.

Tiles like NPT's Starburst Silver provides a distinctive pattern while NPT's Blackies brings more color and a hint of iridescence into the dark color scheme.

We recommend using NPT's PolishedScapes Breakwater for a soothing gray effect or a NPT's QuartScapes Anvil for a blended glass look.

Black Deco

## Pool Features

NPT's Blackies

For an industrial and simple design, we recommend vanishing edges, raised pools, industrial architecture pieces, raised spa, fire pits and outdoor kitchen area.
