

Natural

STYLE BOARD

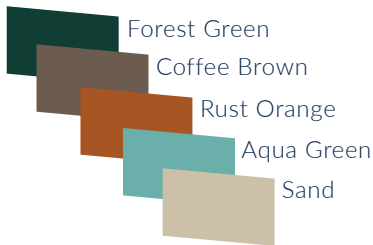

Natural outdoor living style mimics its surroundings to help a swimming pool become a personal organic oasis. This tranquil style works with earthy tones, rocky materials and free flowing designs.

Color Scheme

This down to earth color palette creates a feeling of freshness and rejuvenation with its variations of green and browns. Use the Forest Green and Aqua Green in as much landscaping aspects as possible. This allows your outdoor living areas to feel like a personal oasis.

The Rust Orange will be an accent color to add in variations with Coffee Brown and Sand in furniture, potted plants, landscaping design, pathways and stone fixtures.

Pool Design

Go green with your pool tile to make the outdoors come to life. One can go a little more rustic with NPT's Gemstone Emerald or a slight shine with NPT's Equinox Icy Teal.

Woodland rivers are not always crystal blue but instead often have a green tint. For a Natural style, we recommend using NPT's StoneScapes Pebbles Black or Sand for darker waters and an environmental look.

Consider using natural stones to enhance the free flowing organic design!

Pool Features

To be one with the earth we recommend using stone pathways and decking, waterfalls, grottos, secluded spas, and enhanced greenery or landscaping.
