Color Scheme

Rustic design style has a more structured appearance than natural, but uses similar earthen tones. For this outdoor living style, primarily use features with stone, clay and glass looks.

The primary color of this look is Red Clay. This color can be used in a brick coping or decking, accents or features, and in a pool tile. Mixing Red Clay and Muddy Brown into a pool tile will allow for contrasting colors and a look of mixed textures.

Use the Sage Green and Stone Blue as landscaping needs. A light grass or plant color can help amplify the Aegean Blue in your pool's water color.

Pool Design

When selecting a design for Rustic style, look into the texture of the pool tile. NPT's Jules Rustic Mocha or NPT's Fusion Pinwheel pool tiles provide a Rustic appeal of refurbishment with charming modern effect.

For this pool style also consider vamping the surrounding area with a natural stone raised bond beam wall, wood pieces, or raised gardens as natural elements.

Aim for lighter and cozy vibes with products like NPT's JewelScapes Stormcloud or QuartScapes Regular Cappuccino for a weathered woodland water look.
