## Color Scheme

---

A traveling soul can tell you the beauty of distant crystal clear waters. Use Pewter Grey to replicate the light water color and as inspiration in or around your pool.

Pull the Juniper Green and Rouge Pink into your surrounding landscaping. Vibrant rich grass or vines with subtle pink flowers will help your outdoor living space feel like a whole new world.

White Cream columns, paved walls or landscape decking help the richness of the Navy Blue tile stand out even more.

## Pool Design

---

Whether you are looking at the decorative design of the Notre Dome or the beautiful patterns of the Barcelona walls, NPT has tiles to represent iconic looks from around the world. For this style we recommend NPT's Iberia Cadiz and Hana Capri.

For World Travel pool design, look for structured geometric shapes like Roman and Grecian styles. Also consider adding a raised stone wall with water cascades to add more dimension.

Find exotic water colors like QuartScapes Bonsai and Barbados Blue from NPT for non-traditional colors.
